

## Gateway Upgrade South 2a: Mt Gravatt-Capalaba Road upgrade

### Upcoming works: Mt Gravatt-Capalaba road widening

As part of works for the Gateway Upgrade South Stage 2a project, Mt Gravatt Capalaba Road is being widened to allow for additional traffic lanes, with a new bridge being constructed over Bulimba Creek for westbound traffic. Construction for this project commenced in April 2014 and is expected to be completed by late 2015.

Works to complete the new bridge and widen Mt Gravatt-Capalaba Road are continuing with asphaltting and linemarking activities taking place in various locations on site during **late October and November, 2014** weather and construction conditions permitting. The map overleaf displays work areas during these activities.

In order to minimise disruption to traffic and ensure the safety of motorists and road workers, some of these works will be required to take place during night works. Night time construction activities may occur between 8pm and 5am, up to five nights per week.

Every effort will be made to reduce potential construction impacts, and nearby residents and motorists may experience some noise and traffic delays.

#### What to expect during these works:

- Changed traffic conditions and traffic management, including reduced speed limits, lane closures and some Stop/Go traffic control, will be required during these works.
- Traffic control and signage will be in place to guide motorists.
- Some noise, vibration and lights associated with construction vehicles and equipment.
- Temporary traffic delays may be expected. Motorists are requested to drive carefully, follow the direction of roadside signs and traffic controllers, and allow for additional travel time through worksites.
- If works impact pedestrian facilities traffic controllers or signage will be in place to direct pedestrians.

We apologise for any inconvenience these works may cause and appreciate your patience while these important works are being carried out.

If you require further information on this project, please contact the project team on **1800 799 686\*** or by email [gatewaysouth@tmr.qld.gov.au](mailto:gatewaysouth@tmr.qld.gov.au).
