

**SITE NUMBER:** 6801125  
**LOCATION:** Bruce Highway, Glen Isla

**DIRECTION OF TRAVEL:** South and North (bi-directional)  
**SECONDARY DESCRIPTOR:** Between approximately 225 metres and 325 metres south of intersection with Glen Isla Road and on grass verge

**COMMISSIONED:** 17 March 2023  
**LANES:** 2 (1 Towards, 1 Away)  
**SPEED LIMIT:** 60 km/h

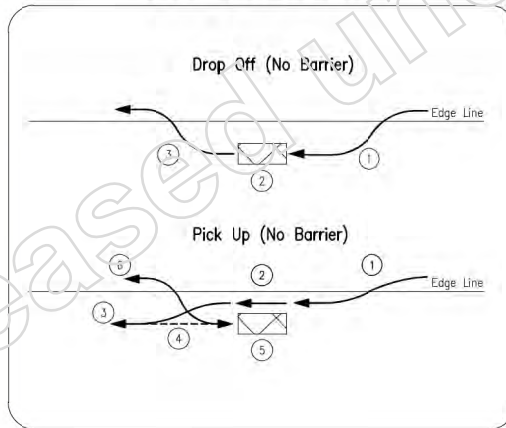

ROAD SAFETY CAMERA SITE PHOTOGRAPH

VEHICLE MOVEMENT DIAGRAM

SITE SPECIFIC NOTES:

1. The estimated Annual Average Daily Traffic (AADT) is greater than 1500 vehicles per day.
2. The aerial image shown on this drawing was downloaded from AutoCAD Maps on the 25th of January 2023.
3. This Site Audit was completed by Tam Talacod from RoadTek on the 9th of November 2022.
4. During prolonged periods of wet weather this Site may not be suitable.
5. The speed limits are the same in both directions.

GENERAL NOTES:

1. The transportable road safety camera pickup and drop off location is desirable during day time hours and outside of peak traffic times.
2. The GPS location is approximate and the dimensions shown are relative to the centre of the transportable road safety camera parking zone.
3. The site assessment is endorsed based on the data collected by RoadTek in 2022. If any changes occur to the roadway or roadside, a reassessment and re-verification is required to confirm site suitability.
4. Prior to operational use, all Safe Work Method Statements (SWMS), Job Safety Analysis (JSA) and Standard Operating Procedures (SOP) must be developed by those responsible for using the site.
5. The transportable device can be installed within the designated RSC Transportable Device Zone. The camera vendor is to consider shading for solar panels.
6. This site is suitable for operation with the Mobile Phone Seatbelt Trailer Systems

## CERTIFICATE OF TEST OF A SPEED MEASURING DEVICE

**Device description:** UMRR-0C Type42  
**Serial number:** 0x00037158  
**Date and time of test:** 12/04/2023 @ 11:00  
**Date of expiry:** 12/04/2024  
**Test results:** As stated in SGS Report TC231019  
**Uncertainty of value(s):** As stated in SGS Report TC231019  
**Customer:** Acusensus Australia Pty Ltd

The test confirmed that the device was compliant in accordance with the manufacturer's specification and the requirements of AS2898.2.

Following satisfactory completion of these tests, the device's speed computing unit was sealed using tamper evident adhesive seal.

Subject: Mackay 2nd Speed Trailer Deployment

Hi NR

I know you've had as crazy day as I have today.

NR is leaving Rockhampton early tomorrow morning and needs a deployment site for the 2nd Mackay trailer ASAP.

He aims to be in Mackay at around 9:30am.

If you're able to reply simply with a site and the site survey for tomorrow's deployment and follow up with a schedule at a letter time/day that would be great.

Kind regards

NR

Subject: Re: TRSC sites - enforcement in single direction only  
Date: Wednesday, 26 June 2024 1:57:59 PM

Thanks NR

I will pass this on to the team to have our database updated to reflect the changes.

Will these sites remain single lane enforcement, or is there an intention to have these updated to bi-directional in future?

Hi NR

Following an internal review of TRSC sites, the below sites have been approved for use, but only in one direction of enforcement due to the distance between the enforcement site and speed limit changes. Enforcement direction is recorded as either towards or away and noted in the Site Restriction details within the Schedule Master spreadsheet.

Can you please confirm that enforcement in only one direction is possible?
