Please note

Generally, offence location data (where the offence occurred) is identified by the issuing officer's station as this is readily available to Data Analysis. The specific offence location field is available in the infringement database, TRAILS (Transport Registration and Integrated Licensing System); however, it is a free text field and is not mandatory (i.e. it could be left blank). Therefore, there are many discrepancies in this field (e.g. no data at all, different spelling of streets and suburbs, etc.). This data has been cleansed to meet the requirements of this request.

Please note

Data extracted on 19/11/2019 and is subject to change

Data Analysis (DA) allows a 3 month lag for extracting and providing offence data. This allows for completeness of data and time for the offence notice to be forwarded from Queensland Police Service (QPS) to Transport and Main Roads (TMR) for entering into the system. The 3 month lag includes the 28 day period for the alleged offender to pay or respond to the offence notice. Some offence categories will still be understated due to the prolonged time it takes for these matters to be finalised (e.g. Drink Driving offences).
