

This map is a guide only and should not be used for navigation purposes. Refer to the *Transport Operations (Marine Pollution) Act 1995* and *Regulation 2018* for complete ship-sourced sewage requirements.

- Declared ships** have a fixed toilet, and are:
- domestic commercial vessels with a certificate of operation issued, or taken to be issued, under the *Marine Safety (Domestic Commercial Vessel) National Law Act 2012* stating it is a class 1B, 1C, 1D, 1E, 4C, 4D or 4E ship; or
  - other Queensland regulated ships regulated under the *Transport Operations (Marine Safety) Act 1994* and *Regulation 2016* designed to carry more than 12 passengers.

- Ships other than declared ships** are all other ships, and include:
- all recreational ships
  - domestic commercial vessels with a certificate of operation issued, or taken to be issued, under the *Marine Safety (Domestic Commercial Vessel) National Law Act 2012* stating it is a class 2 or 3
  - other Queensland regulated ships regulated under the *Transport Operations (Marine Safety) Act 1994* and *Regulation 2016* designed to carry up to 12 passengers.

1852 metres = 1 nautical mile  
 926 metres = 1/2 nautical mile

 Reefs reproduced with permission from GBRMPA

**LEGEND**

- Discharge prohibited
- Reefs (not all reefs may be shown)
- 926 metre line
- Coastal waters (3nM limit)
- Pump-out station
- Toilet

**Discharge permitted with the following restrictions:**

- Grade A treated sewage - Discharge permitted (i.e.no further restrictions)
- Grade B treated sewage - No discharge within 700m of a person in the water, aquaculture fisheries resource (e.g. oyster lease) or a reef
- Grade C treated sewage - No discharge within 926m of a person in the water, aquaculture fisheries resource (e.g.oyster lease) or a reef

**SHIP-SOURCED SEWAGE – DISCHARGE REQUIREMENTS FOR THE GREAT BARRIER REEF MAP SERIES (ONLY)**

**Sewage discharge requirements for Ships other than Declared Ships under the  
*Transport Operations (Marine Pollution) Act 1995 and Regulation 2018***

	1st September 2018
All ships with a fixed toilet	For all ships with a fixed toilet sewage must first pass through a macerator which can't be bypassed before being discharged into the marine environment, unless the fixed toilet is a composting toilet.
Untreated sewage discharge requirements	<p><b>Prohibited Discharge Waters</b>                  Illegal to discharge in coastal waters that are:</p> <ul style="list-style-type: none"> <li>- a boat harbour</li> <li>- a canal</li> <li>- a marina</li> <li>- an area within the Great Barrier Reef Coast Marine Park prescribed under Schedule 6 of the Regulation</li> </ul>
	<p><b>Smooth Waters (Includes rivers, creeks and designated smooth waters)</b>                  * Illegal to discharge</p>
	<p><b>Open Waters</b>                  * Illegal to discharge within ½ nautical mile (926m) of a wharf or jetty, other than a jetty that is a marina                  * Illegal to discharge within 1 nautical mile (1852 metres) of a person in the water, or aquaculture fisheries resources                  * 7 to 15 persons - Illegal to discharge within 1 nautical mile of a reef, the low water mark of an island or the mainland                  * 16 or more persons - Illegal to discharge in open waters</p>
Treated sewage discharge requirements	<p><b>Prohibited Discharge Waters</b>                  Illegal to discharge in coastal waters that are:</p> <ul style="list-style-type: none"> <li>- a boat harbour</li> <li>- a canal</li> <li>- a marina</li> <li>- an area within the Great Barrier Reef Coast Marine Park prescribed under Schedule 6 of the Regulation</li> </ul>
	<p><b>Smooth Waters and Open Waters</b>                  Illegal to discharge Grade C Treated Sewage within ½ nautical mile (926 metres) of</p> <ul style="list-style-type: none"> <li>- a person in the water</li> <li>- aquaculture fisheries resources</li> <li>- reef</li> </ul>
	<p>Illegal to discharge Grade B Treated Sewage within 700 m of:</p> <ul style="list-style-type: none"> <li>- a person in the water</li> <li>- aquaculture resources</li> <li>- a reef.</li> </ul> <p>Illegal to discharge Grade A Treated Sewage in prohibited discharge waters                  - No other restrictions</p>
On-Board Documents	All vessels with a sewage treatment sytem are required to have the following on-board and available for inspection: <ul style="list-style-type: none"> <li>- Sewage treatment system manufacturer's details</li> <li>- Sewage treatment system documentation</li> <li>- Sewage treatment system service manual</li> <li>- Sewage treatment system service records including maintenance and assessment documentation</li> </ul>
